

UTAC

HOMOLOGATED BOXES

Since April 2010, all JONESCO Fire boxes and toolboxes suited for vehicle fitment (JBTE68, JBTB68, JBWB70, JBWE70, JBXE83, JBXB83, JBFB75, JBFB64, JBFB65, JBFR64, JBFR65, JBFR75, JEBE6, JEBB6, JBX45, JBX52, JBX58, JBX62A, JBX62, JBX65, JBX80, JBX80A, JBX100, JBX120) are type approved and can be incorporated in the side guard in accordance with Directive 89/297/EEC which is one of the separate directives in the context of the EC type-approval procedure established under Frame Directive 2007/46/EC. They also comply with Regulation 73 (UN/ECE). All the required tests were carried out and certified under the supervision of UTAC (Document No 10/01591).

UTAC (Union Technique de l'Automobile du motorcycle et du Cycle) is officially designated by the French authorities to the European Commission to perform all vehicle and equipment approval tests under European directives. It has developed extensive know-how and experience, earning a very solid reputation for excellence in France and worldwide. It is one of the 31 certification bodies recognized by IATF (International Automotive Task Force) worldwide.

IATF is a working group set up by the major automotive OEM's and their suppliers with the purpose of harmonizing QM methods and standards previously implemented at national level.

It consists, amongst others, of the following National Trade associations:

AIAG
(Automotive Industry Action Group, USA)

ANFIA
(Associazione Nazionale Filiera Industria Automobilistica, Italy)

FIEV
(Fédération des Industries des Equipements pour Véhicules, France)

SMMT
(The Society of Motor Manufacturers and Traders, UK)

VDA
(Verband der Automobilindustrie, Germany)
